

HOUSING & HOSTING

citySITE

Take your IT to
a safe place.

citySITE is the safest place for your IT or telecommunications equipment. We offer professional space at our own IT & Data Center Linz, guaranteeing state-of-the-art safety and protection.

The citySITE advantages at a glance:

- choice of a whole rack, half or quarter rack
- rack depths of up to 1,200 mm and heights of up to 2,200 mm
- room protected through electronic access control
- optimum data protection and failure prevention through redundant lines
- redundant and uninterrupted power supply
- electricity supply via two transformer stations
- automatic connection of an emergency diesel generator in case of power interruption
- redundant climatisation system
- fire detection system with automatic alarm
- automatic inert gas extinguishing system

Anything is possible.
With citySITE even more than that.

Our objective is a tailored solution for your business.

citySITE can be combined with all city services, e.g. the monitoring tool cityMON, the Internet access cityWEB or the integration and connection applications cityLAN and cityLINE, the antivirus/anti-spam systems cityPROTECT and the storage solution citySTORAGE, thereby offering you all the features of a perfect, customised solution.
